Improving Medical Practice And Health Care: A Bibliographic Guide To Information Management In Quality Assurance And Continuing Education

John W. Williamson

Quality Management in Health Care is seeking an Editor-in-Chief to take editorship of the Journal. Download our overview to apply.

SUMMARY The application of quality assurance principles from the wider health care field to health promotion practice has until recently been underdeveloped in the UK. A project to develop a framework for quality assurance in health promotion practice in England is described. An extensive consultation process identified six key functions of health promotion: strategic planning; programme management; monitoring and evaluation; education and training; resources and information; and advice and… CONTINUE READING.
