Brasilia is the official capital of Brazil. It is the political capital, where the federal government is established there. However, you could also make the point that a capital means more than the place where the executive, legislative, and judiciary powers are located. It is a lavish city, one of the biggest cost of living in the country (if not the biggest), full of gigantic avenues (designed to make protests difficult). It siphoning Brasilia presented the challenge of moving the capital to the interior of the country, to an arid zone, in the middle of nowhere. It was a project of national modernity, encompassing nature, where the Brazilian people, the intellectuals, and the state converged. It was a collective, progressive movement, which embodied social and cultural emancipation, national integration, and economic development. Its aesthetic expression was crowned by its registration as a UNESCO World Heritage Site in 1987. Urban planner Lúcio Costa designed the city plan, in the image (you choose) of either an airplane or...
