The LSWR War Memorial is incorporated in the archway. THE Southern Railway is the smallest of the four great railways brought into being by the Railways Act of 1921. Its route mileage is only 2,186, all, except nineteen miles, of standard gauge. But it has many claims to fame. The Southern is pre-eminently a passenger line. While the bulk of the receipts of the other main lines is from mineral and merchandise traffic, about three-quarters of the earnings of this company are derived from passenger train working. No other great railway undertaking in the world carries so large a proportion of passengers in relation to its total business. The rail network in the Southern United States (1861). A railway mounted gun and its crew, used during the Siege of Petersburg. The American Civil War was the first in which large armies depended heavily on railroads to bring supplies. Due to the vagaries of the war, some lines would be rebuilt six or seven times by differing sides, especially in states like Virginia, where fighting was most intense.[12][14]. Expansion[edit].
