Address Problematic Student Behavior. Reports of problematic behaviors are on the rise nationally, not only in the classroom but in society at large (Kowalski, 2003). Some of these immature, irritating, or thoughtless behaviors or “classroom incivilities” include:

Students can engage in problematic behaviors because of health problems, personal or family problems, adjustment or developmental issues (e.g., immaturity or self-esteem issues), or general academic difficulties. These factors are not controllable, but instructors who feel those are issues are at play can certainly refer students to the appropriate support services on campus. No matter if the child is one student in a classroom with a concern or if the classroom is designed for children with these complex behavioral issues, the methods to teaching and avoiding complications or outbursts are sometimes the same. When teachers learn how to avoid situations that can push the button on these children, it is possible to ensure the classroom’s lesson plan is fully explored and all students get equal attention. One of the best strategies for teaching in an environment like this is to learn methods that help to prevent the occurrence of behavioral issues. While every student’s needs are different, there are some simple steps teachers can take to help prevent problems as a group.
